

Open House

Wynndel Lumber Sales will be hosting an Open House at our facilities in Wynndel, BC on September 25th and 26th, 2009.

We began producing moulded boards out of finishing line almost 1 year ago and this will be the first chance for us to showcase North America's most advanced board line. Wynndel Lumber Sales has almost doubled its production in the last year and as the North American economy evolves over the next few years, we at Wynndel Lumber Sales want our customers and local stakeholders to know they have aligned themselves with a company on the rise. In an environment of extreme adversity Wynndel has continued to invest in Capital Projects ensuring that we remain efficient, competitive and industry leading in innovation. We are here for the long haul.

On September 25th and 26th we will be organizing tours of our SFI Certified Woodlands operations, and running tours through both the Sawmill and the New Finish lines. We will have a giant Texas Pit Barbeque turning out smoked appetizers, smoked brisket, ribs and chicken. On Saturday we will offer tee times and a small golf tournament featuring prize for longest drive, closest to pin etc. at the Creston golf Club. Please join us for this occasion and stake your claim against the Premier Board production or just join us to see what you might be missing.

Please RSVP by September 4th by email:

cschofer@wynndellumber.com or dirk@wynndellumber.com

or phone Chris or Dirk at 877-898-5266.
